ONSET COMPUTER CORPORATION ANNOUNCES FREE WHITE PAPER ON
MONITORING GREEN ROOF PERFORMANCE

BOURNE, MA, February 7, 2008 – Onset Computer Corporation, the “HOBO®” data logger company, today announced a free, white paper entitled, "*Monitoring Green Roof Performance with Weather Stations.*"

This white paper provides valuable guidance and tips on how data logging weather stations can be effectively used to monitor green roof performance. Applications from stormwater runoff monitoring to tracking the impact of green roofs on interior heating and cooling costs are discussed.

To download the free white paper, please visit <http://www.onsetcomp.com/greenroofs>.

ABOUT ONSET

Onset Computer Corporation (<http://www.onsetcomp.com>) has been producing small, inexpensive, battery-powered data loggers and embedded controllers since 1981, and has sold over 1,000,000 loggers that are used throughout the world by over 50,000 customers. The company manufactures a broad range of data logger and weather station products that are used to measure temperature, humidity, light intensity, voltage, and a broad range of other parameters. Onset products are used in a wide range of research, commercial, industrial, and educational applications.
